

- Please make sure that your children read their Little Wandle reading book with you at home. Please may the children bring their reading folder with the Little Wandle book inside back on a Tuesday, along with their reading diaries. **It is so important for the children to read regularly at home.**
- Phonics homework is given out weekly. Maths homework is fortnightly.

Maths

- To continue adding and subtracting using a variety of methods. To begin multiplying and dividing.
- To learn about different coins and notes in money
- To look at $\frac{1}{2}$ and $\frac{1}{4}$
- To learn about time and daily routines, days of the week, months of the year

Science

Plants and the conditions needed for plants to grow. Children will carry out a small investigation evaluating the best places for plants to grow.

Learning to label different parts of plants using language such as stem, root, petal, and leaf.

We will also be learning about healthy lifestyles.

RE

Summer 1- Christianity: Celebrations
Summer 2- Judaism: Prayer and Worship

Computing

To use computer software to create directional code.

History

We will be looking at the timeline of dinosaurs. We will learn about famous palaeontologists and the work they carry out.

Geography

We will look at where different insect species come from. We will look at different habitats.

Literacy

We will be focusing on the books by Eric Carle and relating them to our topic.

Children will make their own stories about mini-beasts/ dinosaurs using their writing and composition skills.

We are focusing on non-fiction texts and diagrams to record the lifecycle of frogs and butterflies.

We will also create a non-chronological report on 'How to catch a T-REX!'.

Art/ Design Technology

We will be looking at the artist 'Henri Matisse' as our Artist study. We will create our own art based on his ideas using different techniques. We will print fossils on salt-dough.

PSHCE

The importance of friendship.
