- Written methods for calculations.
- Co-ordinates
- Angles
- Using mathematical reasoning.
- Problem solving
- Algebra
- Real life maths: wages, taxes, budgets, mortgages etc

Year 6 - Eastbrook Primary Academy Fears and Dreams

Summer term

Geography and History

- Children will develop their mapping skills through use of 4 grid and 6 grid map references. They will use these skills to study the local area and then transfer skills to study areas across the UK.

RE

Understanding important features of different faith systems, including the similarities and differences.

Science

Electricity

Children will use recognised symbols when representing a simple circuit in a diagram. Children will associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit.

They will compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches.

Living things and their habitats

Children will describe how living things are classified into broad groups according to common observable characteristics, based on similarities and differences, including micro-organisms, plants and animals. They will also give reasons for classifying plants and animals based on specific characteristics.

Music

- Children will learn to sing in harmony more confidently and will use instruments with greater control and expression in creating their own compositions. Music skills will be applied when children perform in the year 6 production.

Art/DT

- Children will create sculptures and designs linked to our end of year
