Dear Parents and Carers,

You may have seen recent media coverage regarding Reinforced Autoclaved Aerated Concrete (RAAC) and its use in educational settings. RAAC is a lightweight form of concrete; because it is weaker than regular concrete, concerns have been raised about its long-term durability. The Department for Education (DfE) has recently changed its guidance to education settings on the management of RAAC to take a more precautionary approach and as a result a number of schools are being closed until safety mitigations are put in place.

I am writing to inform and reassure you that Eastbrook Primary Academy is not one of these affected schools.

If anybody wishes to discuss it further, please do not hesitate to get in contact with the school office.

Yours sincerely,

Mr. Clark

Headteacher
