

Origami Monster Bookmark

What you will need:

- Square pieces of construction paper
- White paper
- Red paper (I used leftover gift wrap. You can just as easily paint white paper instead)
- Paintbrush and pink paint
- Scissors
- Glue
- Sequins and silver ribbon (Optional)
- Googly eyes (Optional. You can also paint the eyes on or use black stickers/paper)

Method:

1. Fold the green paper into a triangle. (Pic 2)
2. Fold half the triangle back towards you. (Pic 3)
3. Fold both ends up till they touch the top of the triangle. (Pic 4)
4. Fold these ends down into the pocket that has now formed. (Pic 5)
5. Now paint the insides pink. This will be the mouth. Stick on the googly eyes. Stick the red paper to make a tongue. You now have a Snake Corner Bookmark! (Pic 6)
6. To make the dragon, cut the white paper into a zig-zag pattern and stick over the tongue. And because I cannot stay away from sequins, I added some dragon scales and a silver tail! (Pic 7)

You could change the design to make your own monsters or different creatures!

e.g.
